

ZVI SERIES-POL 2-2428

EAN 8422202224282

Injected polyurethane castors with stainless steel (AISI 304) components. Especially indicated to support high-loads up to 100kg (221lb).

It is used in: outdoor areas, food trolleys, canteens, dining rooms, restaurants, food industry, logistics for military missions material, packaging machines, conveyor belts, stainless steel constructions, light machinery for the construction, containers, roll containers, transport cages, poultry farms, chemical industry, food chains, fridges, freezer cabinets and freezers.

Suitable for mechanical engineering projects by craftsmen and project executors.

POL: long useful life. High resistance to oils and grease. Noiseless, clean and undeformable.

Technical Data

Housing Type	Swivel
Fitting Type	Plate
Braking System	Wheel Brake And Fork
Material	Polyurethane
Hardness of tread	95° SHORE A
Bearing	Plain
Diameter (mm)	80
Width of tyre (mm)	32
Plate dimensions (mm)	105x80
Distance between holes (mm)	86/80x60
Plate hole diameter (mm)	8
Offset (mm)	77
Overall height (mm)	110
Load	100
Unit Weight of the wheel (kg)	0.68
Volume (cm ³)	1509
